

# The Pocket Watchers – Jazz Band

When a musician plays a groove that's very solid and with a great feel it is referred to informally as being “**in the pocket**”

The Pocket Watchers are a group of musicians who are dedicated to exploring the pocket across a variety of musical styles with strong roots in Jazz, Swing, Funk and R&B. It's a rotating door led by Baritone Saxophonist - Tim Stocker, giving as many musicians as possible a chance to find their pocket in a creative and fun environment. It's swinging and grooving and sure to get your guests moving.
